LEAD DISCLOSURE FORM

FOR DC RENTAL PROPERTIES

Purpose: Inform potential renters of the presence of lead-based paint, lead-bearing plumbing, and related hazards at this property.

This form is required for properties built before 1986. For properties built before 1978, this form must be used in addition to the Federal Lead Disclosure form because the DC Law provides additional protections for the renter. For properties built between 1978 and 1986, property owners or managers do not need to complete Section B below regarding lead-based paint.

- Housing built before 1978 is presumed to contain lead-based paint.
- Lead from paint, paint chips, and dust may pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women.
- Anyone disturbing paint during home repair or maintenance should use lead-safe work practices.
- Residential dwellings built before 1986 are presumed to have lead service lines and lead-bearing plumbing.
- Lead service lines and lead-bearing plumbing (pre-2014 lead containing faucets, valves, and fittings, lead solder and lead pipes) are capable of releasing lead into water that may cause permanent health harm even when present in small amounts.
- Lead poisoning in young children may produce permanent neurological damage, learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory.
- Lead poisoning poses a particular risk to developing fetuses and pregnant women.
- Tenants residing in dwelling units served by lead service lines and/or lead-bearing plumbing should: 1) have your water tested for lead, 2) only use cold, filtered water for drinking, cooking, or preparing infant formula, beverages, and ice, and 3) consider obtaining a water filter that is certified by NSF/ANSI Standard 53 for lead removal and maintaining the water filter according to the manufacturer's instructions.

DC requires the renter to have this information **before** they decide to rent the property.

Are you a POTENTIAL TENANT? Review this page carefully before following instructions on page two.

Are you a PROPERTY OWNER?

You will need the following information to complete this form:

- Copies of any lead-based paint, lead service line, or lead-bearing plumbing reports, assessments, or surveys related to the property.
- Copies of any lead tests conducted on the water supply of the property or dwelling unit.
- The latest version of EPA's *Protect Your Family from Lead in Your Home* pamphlet, if the property was built before 1978.
- Knowledge about lead-contaminated dust/soil and condition of the paint on the property, if the property was built before 1978.
- Knowledge about any lead-related legal actions taken against the property.
- Knowledge about whether the property is listed on the DC Water website at <https://www.dewater.com/leadmap> as a property with lead water service lines. DC Water has collected pipe material data for service lines based on permit, water main tap, meter, maintenance, repair, and replacement work. If available, DC Water has recorded on their website the type of pipe material by the sections of the service line in public space and the private portion from the property line to the building.
- Knowledge about the replacement of lead water service lines (on public and private property), including replacement dates.

Property owners: keep the signed original of this form on record for at least 6 years from the date of the most recent signature, as you may be audited by the DC Department of Energy and Environment.

What to look for inside the property or in the property's common areas:

- Peeling, chipping, chalking, cracking, or damaged paint.
- Lead-based paint on windows, doors, stairs, railings, banisters, porches, or other high-wear surfaces that children might chew.
- Lead that is present in bare soil.
- Lead dust that forms when lead-based paint is scraped, sanded, or heated, or when painted surfaces with lead in them bump or rub together.
- Surfaces with lead paint chips/dust, or settled dust that reenters the air through vacuuming or sweeping.
- Check type of pipe material by looking at the pipe that enters your home. Lead is a gray metal and can be easily scratched with a coin. See DC Water's website for Guide to Identifying Household Plumbing at <https://www.dewater.com/lead-sources>.

For more information see the District of Columbia Lead-Hazard Prevention and Elimination Act of 2008, D.C. Official Code § 8-231.01 et seq., and the Federal Lead Warning Statement, 24 CFR Parts 35 and 745. Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, lessors must disclose the presence of known lead-based paint and/or lead-based paint hazards in the dwelling. Lessees must also receive a federally approved pamphlet on lead poisoning prevention. <http://bit.ly/federallead>.
